**RE: Saint Francis Hospital and Medical Center's Request to Replace its Cardiac Catheterization Laboratory**

Dear Steven,

Saint Francis Hospital and Medical Center is seeking to replace one of its existing cardiac catheterization laboratories previously approved by the Office of Health Care Access under Docket Number 01-1507 on October 22, 2001. Please see the attached approval.

Please let me know if you have additional questions or need additional information. I can be reached at 860-714-5573.

I appreciate your efforts in this matter.

Sincerely,

R. Christopher Hartley  
Senior Vice President

Re: Final Decision, Docket Number 01- 1507  
Saint Francis Hospital and Medical Center  
Request to Waive CON Requirements for Replacement Cardiac Catheterization  
Laboratory in Accordance with Section 19a-639c, C.G.S.

Dear Mr. Hartley:

On October 3, 2001, the Office of Health Care Access ("OHCA") received your letter requesting a waiver of the Certificate of Need ("CON") process in accordance with Section 19a-639c of the Connecticut General Statutes ("C.G.S."). Saint Francis Hospital and Medical Center is proposing to replace its existing cardiac catheterization laboratory at a projected capital expenditure of \$925,000.

Please be advised that OHCA has reviewed the information submitted and makes the following findings regarding the request:

1. On August 6, 1985, under Docket Number 85-514, Saint Francis Hospital and Medical Center ("SFHMC") was authorized to replace its cardiac catheterization laboratory at a capital expenditure of \$1,064,898. The authorization included \$110,130 for renovations, \$900,069 for the GE MLX System and \$54,699 for the Hewlett Packard Monitor.
2. SFHMC is proposing to replace the cardiac catheterization laboratory authorized under Docket 85-514. The projected capital expenditure for the replacement

*An Equal Opportunity Employer*

410 Capitol Avenue, MS #13HCA, P.O. Box 340308, Hartford, Connecticut 06134-0308  
Telephone: (860) 418-7001 Fax: (860) 418-7053

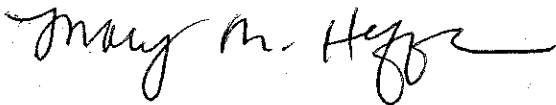

cardiac catheterization laboratory is \$925,000. This includes \$125,000 for renovations.

3. The cost of \$925,000 is below the maximum allowable replacement expenditure established in Section 19a-639c, C.G.S.
4. The proposed expenditure for the proposed replacement cardiac catheterization laboratory is not more than the original cost, plus an increase of ten percent for each twelve-month period that has elapsed since August 6, 1985.

Based on the above findings, OHCA has determined that the proposed replacement cardiac catheterization laboratory meets the requirements of Section 19a-639c, C.G.S. Consequently, the proposed replacement cardiac catheterization laboratory is approved by OHCA and a Certificate of Need is granted to Saint Francis Hospital and Medical Center for the replacement cardiac catheterization laboratory.

Thank you for informing OHCA of your plans regarding this replacement project. If you have any questions regarding this letter, please contact Steven Lazarus, Health System Development, at (860) 418-7001.

Sincerely,

Mary M. Heffernan  
Director, Health System Development
